

Dr Robert Beyer

Data and Research Analyst
Global Migration Data Analysis Centre
International Organization for Migration

Robert Beyer is a Data Analyst at the Global Data Institute of the International Organization for Migration (IOM). His work focusses on generating high-resolution and disaggregated data on global human mobility, and developing computational models to better understand trends and pattern between mobility and its drivers.

He studied mathematics (M.Sc.) and archaeology (M.A.) and obtained a double Ph.D. in mathematics and forest science. Before joining IOM in September 2022, he was a research associate at the University of Cambridge, a Marie-Curie fellow at the Potsdam Institute for Climate Impact Research, and an adjunct lecturer in mathematics at Humboldt University of Berlin.
