

**Dr. Achim Edelmann**

Associate Professor of Computational Social Science  
Sciences Po, Paris

**Biography**

Dr. Edelmann is Associate Professor of Computational Social Science at the médialab of Sciences Po, Paris. His research examines how ideas evolve in scientific and public debates, especially around misinformation, and how social networks and cultural meanings shape social reality. Drawing on sociology, network science, and cognitive science, he combines computational methods, experiments, and qualitative approaches. His work has appeared in Annual Review of Sociology, Social Forces, PNAS, and Poetics.
