

Professor James Raymer

School of Demography

Co-Director, The Population Lab

Australian National University

Biography

Professor James Raymer is a Professor in School of Demography and a Co-Director of the Population Lab at the Australian National University.

Professor Raymer's research focuses on developing methods and frameworks to study demographic processes. He is especially interested in studying migration in instances where data are inadequate or missing, and has led many interdisciplinary and international research collaborations on topics ranging from estimation of migration flows to population forecasting. His recent research has involved estimating international migration in the Asia Pacific region and small area demographic analyses for Australia. For the past six years, he has been an active participant in the United Nations' Expert Group on Migration Statistics.
