

Crystal Fok
Director of AI Applications
Hong Kong Cyberport Management Company Limited

Crystal Fok is the Director of AI Applications at Hong Kong Cyberport Management Company Limited, where she leads initiatives to advance AI development. Her focus is on building a comprehensive AI ecosystem and enhancing infrastructure support to drive innovation in the field.

Previously, Fok was the Head of the Digital Service Hub at Hong Kong Science and Technology Parks Corporation (HKSTP). In this capacity, she directed various innovation and technology initiatives aimed at promoting technology adoption across industries and enabling cross-industry data collaboration.

Her career began at the Applied Science and Technology Research Institute (ASTRI), where she managed a diverse project portfolio, including market analysis, feasibility studies, product development, and technology commercialization. Additionally, as a Consultant at the Hong Kong Productivity Council, she led the optical design team and provided consultancy services focused on precision manufacturing.

Fok earned her PhD in Automation and Computer-Aided Engineering from The Chinese University of Hong Kong (CUHK). Her research interests include artificial intelligence, robotic arm manipulation, micro-robotics, MEMS, and micro-optics.
